Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-34 are rejected under 35 U.S.C. 102(b) as being anticipated by Erickson.

Erickson shows, figure 2, a centrally coordinated communication systems with multiple broadcast data objects and response tracking. The system has databases 24, 34, and 36 (one or more document repositories). Database 24 (global content directory) includes classes (30) with a class and product hierarchy. Buyers, sellers, class, and product all interrelated and cross-referenced. Databases use field identifiers or "pointers". Server 50, "Database access/update processing" acts as a search interface (see "info request" 56), a security interface (access decrypt, also note that portions of documents are released at times denoting access levels) and an intelligence module (update). Note column 8, line 18 where a predefined (standard) set of information is used. Note column 7, line 63 where a selected (unique) set of information is used.

Response to Arguments

Applicant's arguments filed 4/14/05 have been fully considered but they are not persuasive.

Applicant asserts that the reference does not show decrypting and does not show documents. The examiner does not concur. Applicant has not gone into any detail as to how the decryption is done and the examiner has taken the term very broadly. The same can be said for the term "document". Below, the examiner has provided Webster's Collegiate Dictionary definitions for "decrypt", "decipher" and "document". The examiner is considering that when one has access to information on a database, the information is decrypted from a machine-readable format to a human-readable format. The rejection is maintained.

Decrypt – decipher, decode

Decipher – to convert into intelligible form, decode

Document – a writing conveying information.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Cuff whose telephone number is (571) 272-6778. The examiner can normally be reached on 8:00 to 5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Alexander Kalinowski can be reached on (571) 272-6771. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
